

September 10, 2014

Dear Members of Upstate Women in Technology,

Something special happened in August; something that could not have been possible without your support of the Meyer Center for Special Children. On Monday, August 18, 2014 the front doors of the Meyer Center opened to start our sixtieth school year! Ninety-four upstate children entered our special school ready to learn and grow, to overcome the serious obstacles that they face. Since 1954, supporters like you have allowed the center to carry on Dr. Meyer's vision and open the doors for our community's youngest children with disabilities, regardless of their family's ability to pay. Thank you for being an opener of doors.

Unlocking the potential that lies in each child is challenging. It takes teachers and therapists who use specialized training; it takes money, time and talent from donors, volunteers and dedicated parents. Thank you to Upstate Women in Technology for a very generous donation of supplies, gift cards and Change for a Change. Your support helps us make a difference for a child with special needs.

Again, thank you for your gift that will make a difference in the life of a child with disabilities! I hope you enjoy a wonderful fall season.

Sincerely,

A handwritten signature in black ink, appearing to read 'Ryan Thackray'. The signature is fluid and cursive.

Ryan Thackray
Interim Director of Development
